Surgery Volume. In Horacio J. Asbun, & David A. Geller (Eds.), *Laparoscopic Right Posterior Sectionectomy for Treatment of Hepatocellular carcinoma*. American College of Surgeons.

Peer-reviewed International Journals

More than 110 articles were published.

PRESENTATIONS

More than 20 invited lectures about the minimally invasive surgery for hepato-biliary-pancreas disease in the international conference

BRIEF DESCRIPTION

Dr. Yoo-Seok Yoon graduated from the Seoul National University College of Medicine in 1997. After that, he completed his surgical residency and fellowship training at the Seoul National University Hospital from 1998 to 2004. He is currently working as the associate professor in the department of surgery, Seoul National University Bundang Hospital. His primary clinical interests include hepatobiliary and pancreatic surgery, with a special interest in laparoscopic surgery involving liver resection, pancreatectomy, and various kinds of biliary surgery. His team is actively performing the laparoscopic HBP surgery and is known as one of leading groups in this field. He published more than 50 articles related to this field in highly ranked international medical journals.
